A Word from the Mayor

Taichung—The Bicycle City

Taichung contains Taiwan's largest bicycle industry cluster, and can rightfully claim to be the world's high-end bicycle R&D and supply center. It is also the location of the "Bicycle 369" project, which was completed this summer and has made Taichung a 'Bicycle City' worthy of the name. The annual Taichung Bike Week (TBW) also underscores Taichung City Government's (TCG) commitment to the continued improvement of bicycle-related industries.

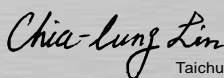

In order to provide an even better industrial development environment, TCG has built the Shuinan International Convention Center, which occupies a superior location close to Taichung Port and Taichung International Airport. The Shuinan Convention Center, which is conveniently located near the center of Taiwan and offers up-to-date infrastructure, is focusing its efforts on maintaining the local bicycle industry's position on the international stage.

Taichung's flourishing bicycle industry and livable environment make it an extremely cycling-friendly city. Since Mayor Lin Chia-lung took office, he has strongly promoted the "Bicycle 369" project, which was completed ahead of time this summer. The Bicycle 369 project has completed the construction of 300 iBike rental stations and 600 kilometers of bicycle trails, and the 9,000 iBikes that have now been put out for rental can be found in all 29 of Taichung's districts. The city's currently-planned iBike 2.0 "doubling" project calls for an increase in rental stations, which are conveniently located near public transportation, to 600, and expansion of the city's bike trails to a total length of 1,000km. In conjunction with "Mr. B&B" (Metro, Rail, Bus, Bike), the project will give Taichung the final mile of its composite transportation system.

TCG is committed to creating an all-round bicycle-friendly environment accommodating both industry and individuals, and hopes to foster enthusiasm for cycling. In conjunction with the 2018 Taiwan Cycling Festival, the city government held the "2018 OK Taiwan: Taichung Bicycle Carnival" artist series, which involved a 100-kilometer route starting out at the city government plaza and including such well-known attractions as the Taichung National Theater, Bicycle Stadium, and Gaomei Wetlands. The city hopes that enthusiastic cyclists from around the world will appreciate Taichung's beauty. In addition, TCG will hold a cycle tour of Taichung starting from Taichung Civic Square on October 1, the first-ever "2018 Taiwan Excellence Award: Bike Day" at Taichung Metropolitan Park on October 21, and a 100km bicycle challenge activity and Wheels Ride Festival starting at the city government plaza on November 26. The city government urges everyone to take advantage of these activities linking the cycle industry, fitness, and recreation, and welcomes everybody to come cycling in Taichung and enjoy leisurely-paced low-carbon bicycle travel.

The city government also hopes to combine bicycles' spirit of sustainability and zero energy consumption and zero pollution with the 2018 Taichung World Flora Exposition. The Exposition, which will kick off on November 3 this year, will have a theme of "GNP-Rediscover Green, Nature and People," which will give GNP a new definition, and give the world an all-new outlook based on harmony between a green lifestyle, coexistence with Nature, and a humane attitude. The core values of this people-friendly GNP concept are perfectly aligned with those of bicycles—a green, environment-friendly form of transportation. The city also welcomes domestic and foreign firms seeking to engage in negotiations with cycle industry companies to take the time to visit the Waipu, Houli, and Fengyuan World Flora Exposition venues, and listen to the sound of blossoms.

This year it is hoped TBW will attract more than 5,000 domestic and foreign buyers seeking to find business opportunities. Mayor Lin wishes all participants a very successful 2018 TBW and hopes the bicycle industry continues to thrive.

台中·自行車之都

Taichung City Mayor, Chia Lung Lin
台中市長 林佳龍

台中是台灣自行車最主要的產業聚落，更是全球中、高級自行車的研發供應重鎮，加上名聞全球的后豐、東豐及潭雅神自行車道，前後綿延不斷的自行車相關活動，以及提前在今年暑假達成的「自行車369」計畫，讓台中成為名符其實的自行車之都。而每年舉行的「台中自行車週」(Taichung Bike Week) 正代表市府持續提升相關產業成長的決心。

今年的台中自行車週將於9月26日至28日舉行，這個展覽活動是針對中高級零件代工生產廠商和成車廠產品經理、貿易商所設置的平台，讓他們能洽談隔年度新車規格的B2B商展。為了提供業者更大的商業平台，並擴大國際商機，市府整合服務並擴大宣傳，增加國內外曝光量，並整合廠商資料及官方網站的設計維護，使得參展規模愈來愈大，參展家數也年年增加。

為了提供更完善的產業發展環境，台中市政府興建水滴國際會展中心，結合台中港、台中國際機場兩大海空雙港以及位居全台中心的物流優勢，堅實的基礎建設，全力將台中自行車產業推向國際舞台。

蓬勃發展的產業，與台中宜居環境結合，塑造非常有利於自行車騎乘的友善環境。佳龍上任之後力推的「自行車369」計畫，已於今年暑假提前達成目標，共有300個iBike租賃站、600公里長自行車道以及9,000輛公共自行車，並且達成全市29區都有iBike的承諾。目前正朝iBike2.0「倍增」計畫，將在公共運輸場站旁，讓租賃站增加到600站，全市自行車道也將延伸到總長1,000公里的規模，結合Mr. B & B (Metro捷運、Rail鐵路、Bus公車、Bike自行車)，完善複合式交通運輸系統的第一哩路與最後一哩路。

台中市政府從產業到個人，全方位營造自行車友善環境、推動自行車騎乘的風氣。配合2018台灣自行車節，市府舉辦「2018 OK台灣·台中自行車嘉年華」系列活動，從府前廣場出發，串聯中國國家歌劇院、自由車場、高美濕地等知名景點 100公里路線，盼各國好手挑戰感受台中之美。此外，10月1日還將在市民廣場舉辦台中騎旅活動、10月21日在台中都會公園登場的首屆「2018台灣精品 好個禮BIKE天」、加上 11月26日府前廣場的100k單車自我挑戰活動及時代騎輪節，一波一波串聯自行車產業、運動與休閒生活的活動，歡迎大家一起悠遊台中，享受慢活單車低碳之旅。

更能與自行車無耗能、無汙染永續精神結合的2018台中世界花卉博覽會，將於今年11月3日開幕，以「花現GNP-Redicover Green, Nature and People」為主題，賦予GNP全新的定義，宣告Green綠色生活共享、Nature自生態共生以及People人文生活共好，三者和諧發展的美好價值，向世界訴說一個全新的觀點。而這樣具有溫度的GNP，與綠色環保載具—自行車的核心價值不謀而合，也歡迎國內外業者洽談之餘，一起來外埔、后里、豐原三大花博展區，聆聽花開的聲音。

今年的台中自行車週活動，規劃在金典酒店、長榮桂冠酒店及永豐棧酒店舉行，可望吸引超過5,000位國內外採購買主前來洽談商機，佳龍在此預祝2018台中自行車週活動圓滿成功，台中自行車產業蓬勃發展。

A Word from the Publisher & Co-Organizer

Surviving the Trade War through Adaption

Text: Grace S. Ruan

The bicycle industries on both sides of the Taiwan Straits are watching the US-China trade war with great concern. Because parts used by the cycle industry (including tires) are among the products subject to tariffs, the industry has been paying close attention to President Trump's statements. And because close to 90% of the bicycle products in the American market are imported from China, imposing tariffs on Chinese bicycle products will have a major impact on American consumers. The United States has announced that it will impose 10% punitive tariffs on \$200 billion worth of Chinese products starting on September 24, and will raise the tariff rate to 25% on January 1, 2019, and the products affected by these tariffs include many mid-/low-end bicycle parts and accessories. This will be a major blow to the Chinese bicycle industry's competitiveness, and will also have a big impact on those Taiwanese bicycle firms that have established plants in China. As a result, we expect that many of these companies will move their production lines to Southeast Asia or back to Taiwan. In retaliation for American tariff measures, the Chinese government has announced that it would slap 5%-10% tariffs on \$60 billion worth of products imported from the US as of September 24.

Not only have bicycle companies in China been anxious to discuss response measures with their American customers, even companies like Kent, which had moved production back to the United States, will also be impacted by the trade war. This is because most parts and accessories used by Kent are imported from China, and will be affected by the incrementally rising tariffs. The current trade war puts Taiwanese companies with plants in China in an even tougher position, because their operating costs in China had already been rising steadily, and they faced labor shortages. As a result, some Taiwanese firms began investing in Vietnam last year, and the trade war will inevitably persuade even more Taiwanese companies to return to Taiwan or established plants in Vietnam or other Southeast Asian countries. Of course Taiwan also faces labor shortages, but the Ministry of Economic Affairs hopes to take measures to address this problem.

China has had an unlucky year thus far in 2018. On July 19, the EU imposed provisional punitive anti-dumping tariffs on e-bikes, with a tariff rate ranging from 21.8% to 83.6%. The final ruling in the EU's anti-dumping case will be issued in late

January 2019, and tariffs will be imposed retroactively on e-bikes exported to Europe from May 3. According to EMBA secretary-general Moreno Fioravanti, unfair low-price competition from Chinese e-bikes is threatening the survival of the European e-bike industry. The EU also extended its anti-dumping tariffs on bicycles, which were set to expire in June 6, 2018, for another six months, and is expected to also issue a final ruling on the case in late January 2019. These actions have caused Chinese bicycle and e-bike exports to the EU to come almost to a standstill. In the face of many trade barriers, Chinese companies inevitably must strive to expand demand in the domestic market. The shared bicycle bubble of last year has gradually deflated, and only the four brands Mobike, Ofo, HelloBike, and Didi remained standing. The number of shared bicycles on Chinese streets has also shrunk dramatically. The number of shared e-bikes is still increasing steadily, however, and HelloBike has the greatest share. There were 350,000 shared e-bikes in China as of late September 2018, and we expect to see a growing number of electric vehicles in the future.

In the face of unfavorable economic conditions, Taiwan's bicycle industry has had to struggle during the last few years. Although bicycle exports have fallen steadily, e-bike exports have experienced rapid growth, and average unit prices continue to reach new highs. According to draft figures, Taiwan's bicycle exports totaled 1.453 million units from January to August of 2018—a decrease of 5.6% compared with the same period of last year. Nevertheless, the value of exported bicycles totaled US\$950 million during this period, which represented growth of 16.9%. In addition, Taiwan's e-bike exports grew by 45.5% during 2018 to August, and the average unit value increased by 4.86% to US\$1,394.

The length of Taichung Bike Week—the world's most important OEM exhibition—was changed to three days this year. We welcome international bicycle personnel to Taichung, and hope everyone has a very productive and successful time. Not long after Taichung Bike Week, the Taipei International Cycle Show will be held from October 31 to November 3. Although these two trade shows have different positioning, we feel that their close proximity in time will cause difficulties for vendors and buyers. However, the Taipei Cycle Show will return to March 2019, and Taichung Bike Week will be held during October.

Welcome to 2018 TBW

We are very pleased to welcome all visitors and exhibitors to 2018 Taichung Bike Week. This event has experienced a very rapid rise since its inception over a decade ago, and it has become the primary international show for bike industry vendors to introduce their latest OE products to buyers and product managers from around the globe. The rapid rise of TBW speaks volumes to the unique format of the event. There is no other B2B show that offers the same amount of efficiency, the same level of business opportunities or at the kinds of costs exhibitors at TBW are able to take advantage of.

However, TBW's rapid growth could not continue forever, and this year marks the first in which the event has experienced a decrease in the number of exhibitor booths. This week, 353 manufacturers will occupy 430 booths in Taichung's Evergreen, Splendor and Tempus hotels. 96 companies are located in 106 booths at the Evergreen Hotel, 194 companies are displaying in 242 booths in the Splendor Hotel, and 63 companies occupy 82 booths at the Tempus Hotel.

Apart from the fact that it was impossible for TBW's double digit growth to go on indefinitely, a major reason for the downturn in booth registration is due to the conflicting dates with Taipei Cycle Show. This year marks the first time that Taipei International Cycle show will be held in October instead of March, and many exhibitors have found they don't have the manpower or budget to allow for exhibiting at two side-by-side shows in

Taiwan. Another major change to TBW is that this year there will be no separate Ride On event held at the Millennium Hotel Taichung. Instead, many members of the group will be exhibiting in the Splendor and Evergreen hotels.

Despite this year's slightly reduced exhibitor numbers we are confident that TBW still has a very healthy future. The show is held in Taichung at this time of year for a very good reason— Everything is here on the industry's doorstep. The vast majority of the Taiwanese bike industry have facilities nearby. There is no other location, apart from Taichung, where visitors are never more than a 40-minute-drive from 85% of the bicycle industry in Taiwan. The format, cost efficiency, timing and location of TBW tick all the boxes that the industry—both vendors and buyers need.

Taichung Bike Week receives a lot of support from Taichung City Government, and the organizers would like to thank Mayor Lin and other city government officials for their continued commitment and support. In addition to providing TBW information service booths in each hotel, Taichung City Government are also hosting a buffet-style Welcome Dinner. This Welcome Dinner will be held at The Landis Taichung on the evening of September 26.

Finally, we would like to wish all buyers and vendors participating in the 2018 Taichung Bike Week a successful show and very prosperous year.
